## Our Advantages

### ***Attractive Installations***

We deliver artisan-quality hardscaping and landscaping, creating unique and beautiful environments, custom designed for your space.

### ***Quality***

With honest and dependable craftsmanship, our installations exceed industry ICPI & NCMA standards using affordable, reliable materials. Building according to Charlotte Dreamscapes standards allows us to warranty our installations longer.

### ***Service***

We pride ourselves on building lasting relationships with our clients. Our attention to detail and enthusiasm for your ideas will be visible in your completed project for years to come. Customers enjoy individualized service from a responsive, professionally trained, and fully-insured business.

### ***Value***

Our competitive pricing is built to meet your budget, time, and design goals while adding to the value of your home.

We offer phased planning that allows our customers to reach their long-term goals affordably.

### ***Reputable***

Our customers love us! Find us online to see our many 5-star reviews, BBB Accreditation, Awards from Houzz and others.

# Specializing In

- **Wooden Fences and Gates**  
Privacy. Safety. Style. Our custom fences are built to last.

Your beautiful gardens deserve a beautiful display. Garden beds are a great way to add detail and dimension to your landscape.
- **Pressure Washing & Staining**  
Add years of life to your landscape construction.
- **And More!**  
Call us with your project ideas!

# Working with Charlotte Dreamscapes

Whether you know exactly what you want for your space or are just beginning to dream about it's potential, the most important task is to develop an overall plan that meets all your needs.

From the first chat to completing your dreamscape, our accomplished landscape designers will help you realize your landscape's potential to the fullest, seamlessly fitting together each element of the overall project.

*Let us take your vision from dream to reality!*

## A good plan

- ensures that your vision is clearly communicated.
- fits together each separate element seamlessly.
- allows the project to be completed in phases.
- prevents the omission of important components.
  - drainage, lighting, future planning/access, etc.
- ensures the proper materials are chosen.
- reduces the cost of maintenance.

## Step 1: Initial Consultation

A brief conversation with a member of our design team can often answer many of your general questions and determine if we are the right team for your project. During this conversation, our designer will gain an understanding of your project, along with your landscape dreams and goals.

If you already have a design, landscaping plans, or know exactly what you want, our team will gladly create a free estimate for your project. For more involved design and construction projects, we will schedule your on-site appointment.

*We offer free estimates and design consultation services based on your unique needs.*

## Step 2: Nice to Meet You!

Our design consultants will meet with you to clarify information, discuss ideas and questions, and evaluate your job-site. We'll take measurements and photographs of your existing landscape and note any existing conditions, and current landscaping problems, like drainage issues or recommended repairs.

We'll discuss all desired functionality and expected budgets, which allows for a realistic program to be established before proceeding with the design.

## Step 3: Design Presentation

Our enthusiasm for your dream, years of experience and attention to detail will be apparent in your proposal, designed to complement your personal style, budget, and outdoor living vision.

Your creativity drives every aspect of your project. We provide flexible budget options and project phase planning to fully realize your outdoor living environment, when it makes sense for you.

## Step 4: Construction

After your design and contract have been finalized, we will order your materials, schedule a "Call Before You Dig", and provide an estimated start date for your project.

All work by Charlotte Dreamscapes is all-inclusive and covers all design, planning, materials, supplies, labor, taxes, warranty, insurances, deliveries, tools, equipment, fuel, disposal fees, area preparation/protection, and site cleanup, for completion of the work as specified in your proposal.

*No Project is too small - Call us today!*

*Show off the investment in your home.  
Create a retreat for relaxing, entertaining,  
and escaping the everyday.*

Our team offers a diverse skill set, saving you money, time, and frustration. We will listen to you and together create your perfect space!

We offer a broad range of services that allow our customers to use just one contractor for their entire project instead of many single service providers.

If you're a developer or architect, we can help you bring your project in on time, and under budget. Our ability to perform a wide variety of services, from excavation and site work to hardscaping and landscaping means fewer-subcontractors are needed to complete your job. Our years of experience in each of these areas allows us to complete the many facets of a landscape project efficiently and seamlessly with no down time waiting for multiple contractors to arrive on your schedule. Let our installation team make you look good on your future projects.

We are always looking for hard-working, talented people to join our team. We offer competitive pay and benefits and provide a family-like work environment. Call for more information!

We strive to make sure our crew knows how important they are how grateful we are to have them. It's our goal for our clients to feel the same way.

The Team-Customer-Company relationship is key to building lasting success. This belief is cornerstone to our very existence.
